

Bill Foley Music Maker

603-479-6111- BillFoleyMusic.Com/Seniors

If your goal as an Activities, Life Enrichment, or Social Director is to provide top quality, energetic and engaging entertainment for your residents, patients and seniors, you've come to the right place.

For the past seven years, Bill has performed on average sixty shows a month for folks at independent, assisted living, nursing & rehabilitation facilities as well as senior centers and adult day programs all over New England.

A great relationship and solid reputation has been established among Activity/Program/Life Enrichment Directors and, of course, "the folks." He always looks forward to seeing his regular groups and performing for new audiences.

Bill, with great energy and engagement:

Performs on guitar, harmonica and vocals a wide range of well-known popular songs of a broad variety of genres, styles, and time periods - a nice flow of jazz, folk, show tunes, blues, country, bluegrass, rock and roll, spirituals, – fun, memory evoking songs....(sometimes folks even get up and dance!)

Dresses nicely, stands up when he plays, does not use "cheat sheets" so he's always in contact with the audience

Does not use any amplification (unless absolutely necessary)

Gives brief, informative, and, at times, humorous background histories and personal recollections of the songs

Engages with each resident, one on one, after each performance

He is never late and timely communicative. Should there be traffic problems or an inability to make it due to extenuating circumstances (e.g. illness or pressing personal matters) he'll always promptly call and let you know.

Above all, your folks will love the show!

So, there you have it. Your time is appreciated.

Have a nice day.
