

Bill Foley Music Maker TESTIMONIALS

If you're looking for a really great entertainer, Bill Foley is seriously one of the best! He plays guitar and harmonica and sings with great passion-you truly can tell that he loves what he does. One of the best things about him is he spends a minute with EVERY single resident after his performance. The songs that he sings are not the ones you regularly hear from most entertainers that come to facilities. He has a very different repertoire-songs that have brought tears to residents' eyes or songs that they have not heard in years.

I don't promote a lot of entertainers but Bill is really great. He plays every other month here and the residents love him.

Bill Foley has been an entertainer here at Windham Terrace for over five years. He is an incredible folk singer with a twist of jazz and old fashion charm. Bill comes with his guitar, wooden plank to keep the beat, harmonica and constant motion keeping us engaged every moment he is here. The residents and staff ask for him "when is the young man coming back, he was wonderful".

Bill Foley is a talented musician who has been entertaining at Prescott House in North Andover for many years. Bill always comes with new songs and the residents love how he plays a guitar and harmonica the whole time as well as the board he uses to keep rhythm with his feet. The combination makes it more enjoyable and more lively for the residents. He has entertained at our cookouts, Christmas parties, Nursing Home Week and any time we need him he will come in and entertain our residents.

I have been working with Bill going on 6 years now at skilled nursing and assisted living residences. Initially I was an activity assistant and now that I am an activity manager, I have been thrilled to be able to add him to the mix of entertainers at my current location. Bill has a natural ability to connect with seniors—they like him. Residents enjoy Bill's performances—the songs he selects, the history and stories he tells; the way he sings, plays the guitar, and harmonica. He always keeps my residents' attention. His most endearing trait is the way he greets and thanks each resident after every performance. That really puts a sparkle in their eyes.

After one performance, a resident who clearly enjoyed the show pulled me aside and said, "That guy really works hard!". He does indeed and he does an exemplary job.
